William Jobes

2 South State Street
Newtown, PA 18940

Friday, November 7
6:30 pm

In a career that spans more than four decades, William Jobes has been awarded multiple Emmys as a television news journalist. In recent years, Mr. Jobes has stepped out of news journalism and crossed over to the rhythms of nature, pursuing the natural world through the unique, inquisitive and probing perspective one acquires as a lifelong journalist. By opening his sense of awareness and walking in tune with nature, he positions his lens to capture a unique moment in time and memorialize it forever.
